FOREWORD

The importance of health care services in a fact growing economy is globally recognised. This requires addressing the needs of the targeted population by fully utilizing the existing capacities in the most effective and efficient manner, in addition to creating capacities by way of additional infrastructure, human resources etc. and new programmes. The National Health Mission has placed considerable emphasis on this with a view to achieving the objectives of the Mission for which availability of credible and real time data is a necessary.

This Ministry has been bringing out a regular annual publication titled "Rural Health Statistics", which provides detailed data on rural health infrastructure, human resources facilities, training etc. This caters to the needs of health planners, policy makes, other government and non-government organizations and research institutions working in the field of health and family welfare. Since last year, information on availability of doctors, paramedical and status of buildings of District and Sub-District Hospitals has also been included in the publication. Information pertaining to tribal areas is also available in the document. The present issue gives information up to March, 2015.

I would like to make a special mention that this time the Ministry has been able to bring out this publication within four months. This, I am sure, will increase the usefulness of the publication. I do believe this document will benefit all the stake holders immensely.

We will be happy to receive suggestions for improvement of this publication.

Acknowledgement

This Ministry has been regularly compiling and disseminating information on rural health care delivery system through the annual publication titled "Rural Health Statistics", based on the data received from the States and Union territories. The relevance of reliable and up-to-date statistics on rural health care system in formulation of appropriate schemes/programmes and in their effective implementation, particularly in the context of strengthening the rural health care infrastructure and human resources is well known. The present issue of "Rural Health Statistics" contains data upto March 2015.

We have now been able to reduce the time lag of this publication considerably. The support and cooperation received from the States/Union territories in facilitating quick release of this publication is laudable. I place on record this Ministry's appreciation for the efforts made by the concerned officials of each and every State/Union territory towards this. The data for 2014-15 in respect of Manipur have been taken from the last year, as the same has not been received from the State.

The overall supervision and guidance of Mr. P. C. Cyriac, Deputy Director General and of Mrs. Navanita Gogoi, Director in bringing out this publication are commendable. Valuable support extended by Mr. A.H.Ramteke, Assistant Director and Ms. Shilaja Sebastian, Data Processing Assistant in compiling data and its critical analysis is duly acknowledged.

HIGHLIGHTS

RURAL HEALTH STATISTICS 2014-15

Highlights

- As on 31st March, 2015, there were 153655 Sub Centres, 25308 Primary Health Centres (PHCs) and 5396 Community Health Centres (CHCs) functioning in the country. While the Sub Centres, PHCs and CHCs have increased in number in 2014-15, the current numbers are not sufficient to meet their population norm.

Sub Centres

- Number of existing Sub Centres increased from 146026 in 2005 to 153655 by March 2015. There is significant increase in the number of Sub Centres in the States of Chhattisgarh, Gujarat, Jammu & Kashmir, Karnataka, Odisha, Rajasthan, Tripura and Uttarakhand.
- There has been an addition of 1329 Sub Centres, during the year 2014-15. Significant increases in the number of Sub Centres have been reported in the States of Gujarat (789) and Madhya Pradesh (428).
- Percentage of Sub Centres functioning in the Government buildings has increased from 50% in 2005 to 67.5% in 2015. The increase is mainly due to addition in the number of government buildings in the States of Assam, Chhattisgarh, Karnataka, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tripura, Uttarakhand, Uttar Pradesh and West Bengal.
- As on 31st March, 2015 the overall shortfall in the posts of HW(F) / ANM at SCs & PHCs was 5.21% of the total requirement, mainly due to shortfall in the States of Arunachal Pradesh, Chhattisgarh, Gujarat, Himachal Pradesh, Karnataka, Rajasthan, Tamil Nadu, Tripura, Uttarakhand and Uttar Pradesh.

Primary Health Centres (PHCs)

- Number of PHCs has increased by 2072 during the period 2005-2015. Significant increase is observed in the number of PHCs in the States of Assam, Bihar, Chhattisgarh, Jammu & Kashmir, Karnataka and Rajasthan.

- The number of PHCs has increased by 288 during the year 2014-15. Significant increases in the number of PHCs have been observed in the States of Karnataka (120) and Gujarat (89).
- Number of ANMs at Sub Centres and PHCs has increased from 133194 in 2005 to 212185 in 2015 which amounts to an increase of about 59.3%.
- Percentage of PHCs functioning in government buildings has increased significantly from 78% in 2005 to 89.5% in 2015. This is mainly due to increase in the government buildings in the States of Assam, Chhattisgarh, Gujarat, Karnataka, Madhya Pradesh, Maharashtra, and Uttar Pradesh.
- The number of allopathic doctors at PHCs has increased from 20308 in 2005 to 27421 in 2015, which is about 35.0% increase.
- Shortfall of allopathic doctors in PHCs was 11.9% of the total requirement for existing infrastructure.

Community Health Centres

- Number of CHCs has increased by 2050 during the period 2005-2015. Significant increase is observed in the number of CHCs in the States of Gujarat, Jharkhand, Kerala, Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal.
- There has been an increase of 33 CHCs from the number reported upto March, 2014. Significant increase in the number of CHCs are observed in the State of Gujarat (20).
- Number of CHCs functioning in government buildings has also increased during the period 2005-2015. The percentage of CHCs in Govt. buildings has increased from 91.6% in 2005 to 95.1% in 2015.
- Significant increase in the number of paramedical staff is also observed in 2015 when compared with the position of 2005.

- In addition to 4078 Specialists, 11822 General Duty Medical Officers (GDMOs) are also available at CHCs as on 31st March, 2015.
- There was huge shortfall of surgeons (83.4%), obstetricians & gynaecologists (76.3%), physicians (83.0%) and paediatricians (82.1%). Overall, there was a shortfall of 81.2% specialists at the CHCs vis-a-vis the requirement for existing CHCs.

Comparison of Manpower with previous year

- While number of Sub Centres, PHCs and CHCs have increased during the year 2014-15, the number of ANMs, Specialists & Radiographers declined, though marginally from the position in 2013-14.
- The number of ANMs at Sub Centres and PHCs (**Statement 14**) has decreased from 2,13,400 in 2014 to 2,12,185 in 2015 (decrease of 1,215). Major reductions are observed in the States of Maharashtra (466), Tamil Nadu (619), Jammu & Kashmir (292), Rajasthan (259), Tripura (185) and Madhya Pradesh (168).
- Similarly, the number of allopathic doctors at PHCs (Statement 14) increased from 27,355 in 2014 to 27,421 in 2015. There are significant increases in the States of Maharashtra (431), Rajasthan (301), Tamil Nadu (236) and Haryana (94). Major reduction is observed in the State of Jammu & Kashmir (390).
- Regarding the specialist doctors at CHCs (**Statement 14**), the number has declined from 4091 in 2014 to 4078 in 2015. Major decreases have been noticed in the States of Rajasthan (125) and Punjab (29).

Coverage of Rural Health Infrastructure (As on 31st March, 2015)

- Average rural population covered by health facility (based on the rural population of 2011 Population Census):

| | Norm | Status (2015) |
|-------------------------------|--------------|---------------|
| Sub Centre | 3000-5000 | 5426 |
| Primary Health Centre (PHC) | 20000-30000 | 32944 |
| Community Health Centre (CHC) | 80000-120000 | 154512 |

- Average rural area (Sq. Km) covered by

| | |
|-------------------------------|--------|
| Sub Centre | 20.27 |
| Primary Health Centre (PHC) | 123.09 |
| Community Health Centre (CHC) | 577.32 |

- Average radial distance (Km) covered by

| | |
|-------------------------------|-------|
| Sub Centre | 2.54 |
| Primary Health Centre (PHC) | 6.26 |
| Community Health Centre (CHC) | 13.55 |

- Average number of villages covered by

| | |
|-------------------------------|-----|
| Sub Centre | 4 |
| Primary Health Centre (PHC) | 25 |
| Community Health Centre (CHC) | 119 |

Note: The analysis presented above for infrastructure and manpower is based on the data received from various States / UTs. The States / UTs which do not have relevant data for a particular item / category, were excluded while calculating percentages for facilities functioning in Government buildings, manpower vacancies and shortfall etc. Comparative position of infrastructure and manpower for 2014 and 2015 is given in Statements 12-15.

PART 1.

RURAL HEALTH CARE SYSTEM IN INDIA

Rural Health Care System in India

Rural Health Care System – the structure and current scenario

The health care infrastructure in rural areas has been developed as a three tier system (see *Chart 1*) and is based on the following population norms:

Table 1.

| Centre | Population Norms | |
|-------------------------|------------------|-----------------------------|
| | Plain Area | Hilly/Tribal/Difficult Area |
| Sub Centre | 5000 | 3000 |
| Primary Health Centre | 30,000 | 20,000 |
| Community Health Centre | 1,20,000 | 80,000 |

As on 31st March, 2015, there are 153655 Sub Centres, 25308 Primary Health Centres (PHCs) and 5396 Community Health Centres (CHCs) functioning in the country

Sub Centres (SCs)

1.2. The Sub Centre is the most peripheral and first contact point between the primary health care system and the community. Sub Centres are assigned tasks relating to interpersonal communication in order to bring about behavioral change and provide services in relation to maternal and child health, family welfare, nutrition, immunization, diarrhoea control and control of communicable diseases programmes. Each Sub Centre is required to be manned by at least one auxiliary nurse midwife (ANM) / female health worker and one male health worker (for details of staffing pattern, see **Box 1** and for recommended staffing structure under Indian Public Health Standards (IPHS) see **Annexure I**). Under NRHM, there is a provision for one additional second ANM on contract basis. One lady health visitor (LHV) is entrusted with the task of supervision of six Sub Centres. Government of India bears the salary of ANM and LHV while the salary of the Male Health Worker is borne by the State governments. Under the Swap Scheme, the Government of India has taken over an additional 39,554 Sub Centres from State governments / Union territories since April, 2002 in lieu of 5,434 Rural Family Welfare Centres transferred to the State governments / Union territories. There were 1,53,655 Sub Centres functioning in the country as on 31st March, 2015.

Number of Sub Centres increased from 146026 in 2005 to 153655 in 2015. There is significant increase in the number of Sub Centres in the States of Chhattisgarh, Gujarat, Jammu & Kashmir, Karnataka, Odisha, Rajasthan, Tripura and Uttarakhand.

Primary Health Centres (PHCs)

1.3. PHC is the first contact point between village community and the medical

At the national level, there is an increase of 2072 PHCs by 2015 as compared to that existed in 2005. Significant increase is observed in the number of PHCs in the States of Assam, Bihar, Chhattisgarh, Jammu & Kashmir, Karnataka and Rajasthan.

officer. The PHCs were envisaged to provide an integrated curative and preventive health care to the rural population with emphasis on preventive and promotive aspects of

health care. The PHCs are established and maintained by the State governments under the Minimum Needs Programme (MNP)/ Basic Minimum Services (BMS) Programme. As per minimum requirement (Box-1), a PHC is to be manned by a medical officer supported by 14 paramedical and other staff (See Annexure-I for IPHS norms). Under NRHM, there is a provision for two additional staff nurses at PHCs on contract basis. It acts as a referral unit for 6 Sub Centres and has 4 - 6 beds for patients. The activities of PHC involve curative, preventive, promotive and family welfare services. There were 25,308 PHCs functioning in the country as on 31st March, 2015.

Community Health Centres (CHCs)

1.4. CHCs are being established and maintained by the State government under MNP/BMS programme. As per minimum norms (Box-1), a CHC is required to be

At the national level there is an increase of 2050 CHCs by 2015 as compared to that existed in 2005. Significant increase is observed in the number of CHCs in the States of Gujarat, Jharkhand, Kerala, Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal

manned by four medical specialists i.e. surgeon, physician, gynecologist and pediatrician supported by 21 paramedical and other staff (See Annexure-I for IPHS norms). It has 30 in-door beds with one OT, X-ray,

labour room and laboratory facilities. It serves as a referral centre for 4 PHCs and also provides facilities for obstetric care and specialist consultations. As on 31st March, 2015, there were 5,396 CHCs functioning in the country.

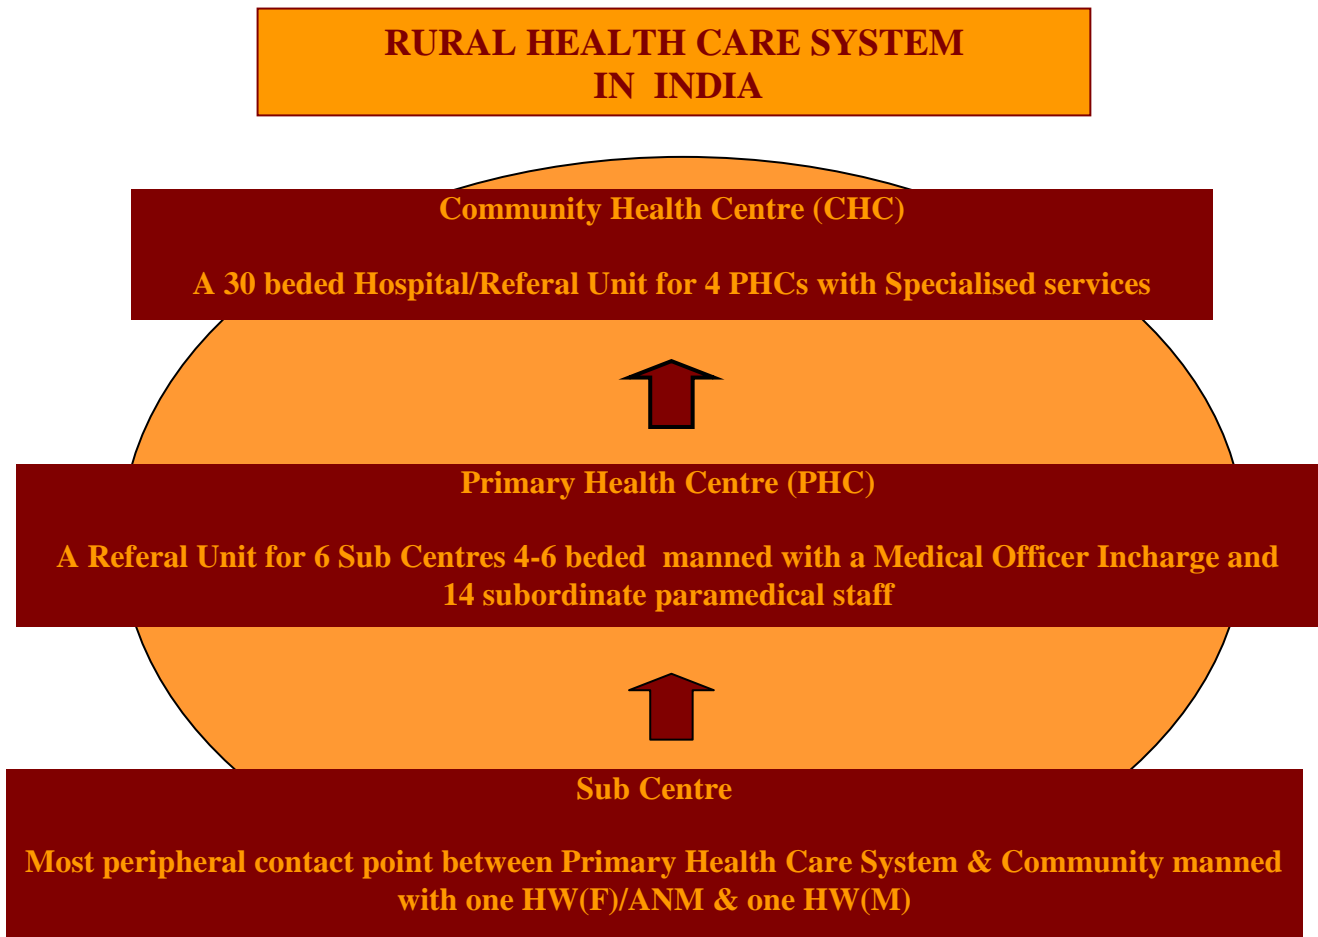

1.5. The details of the population norms for each level of rural health infrastructure and current status against these norms are given in **Box 2**.

First Referral Units (FRUs)

1.6. An existing facility (District Hospital, Sub-divisional Hospital, Community Health Centre etc.) can be declared a fully operational First Referral Unit (FRU) only if it is equipped to provide round-the-clock services for emergency obstetric and New Born Care, in addition to all emergencies that any hospital is required to provide. It should be noted that there are three critical determinants of a facility being declared as a FRU: i)

Emergency Obstetric Care including surgical interventions like caesarean sections; ii) new-born care; and iii) blood storage facility on a 24-hour basis.

Chart 1.

2. Strengthening of Rural Health Infrastructure Under National Rural Health Mission

2.1. The National Rural Health Mission seeks to provide effective healthcare to rural population throughout the country with special focus on 18 States, which have weak public health indicators and/or weak infrastructure. These 18 States are Arunachal Pradesh, Assam, Bihar, Chhattisgarh, Himachal Pradesh, Jharkhand, Jammu & Kashmir, Manipur, Mizoram, Meghalaya, Madhya Pradesh, Nagaland, Odisha, Rajasthan, Sikkim, Tripura, Uttarakhand and Uttar Pradesh. The mission is an articulation of the commitment of the government to raise public spending on health from 0.9% of GDP to 2-3% of GDP.

2.2. NRHM aims to undertake architectural correction of the health system to enable it to effectively handle increased allocations and promote policies that strengthen public health management and service delivery in the country. It has as its key components provision of a female health activist in each village; a village health plan prepared through a local team headed by the Village Health, Sanitation & Nutrition Committee

(VHS&NC) of the Panchayat; strengthening of the rural hospital for effective curative care and made measurable and accountable to the community through Indian Public Health Standards (IPHS); integration of vertical health & family welfare programmes, optimal utilization of funds & infrastructure, and strengthening delivery of primary healthcare. It seeks to revitalize local health traditions and mainstream AYUSH into the public health system. It further aims at effective integration of health concerns with determinants of health like sanitation & hygiene, nutrition, and safe drinking water through a District Plan for health. It seeks decentralization of programmes for district management of health and to address the inter-State and inter-district disparities, especially among the 18 high focus States, including unmet needs for public health infrastructure. It also seeks to improve access of rural people, especially poor women and children, to equitable, affordable, accountable and effective primary healthcare.

Box 1.

| STAFFING PATTERN (Minimum norm) | |
|--|--|
| A. | <u>STAFF FOR SUB - CENTRE:</u> |

2.3. Core and Supplementary Strategies of NRHM:

2.3.1. Core Strategies:

- Train and enhance capacity of Panchayati Raj Institutions (PRIs) to own, control and manage public health services.
- Promote access to improved healthcare at household level through the female health activist (ASHA).
- Health Plan for each village through Village Health, Sanitation & Nutrition Committee of the Panchayat.
- Strengthening Sub Centre through an untied fund to enable local planning and action and more multi-purpose workers (MPWs).
- Strengthening existing PHCs and CHCs, and provision of 30-50 bedded CHC per lakh population for improved curative care to a normative standard (Indian Public Health Standards defining personnel, equipment and management standards).

- Preparation and implementation of an inter-sectoral District Health Plan prepared by the District Health Mission, including drinking water, sanitation & hygiene and nutrition.
- Integrating vertical health and family welfare programmes at national, State, district, and block levels.
- Technical support to national, State and district health missions, for public health management.
- Strengthening capacities for data collection, assessment and review for evidence based planning, monitoring and supervision.
- Formulation of transparent policies for deployment and career development of human resources for health.
- Developing capacities for preventive health care at all levels for promoting healthy life styles, reduction in consumption of tobacco and alcohol etc. promoting non-profit sector particularly in under served areas.

2.3.2 Supplementary Strategies:

- Regulation of private sector including the informal rural practitioners to ensure availability of quality service to citizens at reasonable cost. Promotion of Public Private Partnerships for achieving public health goals. Mainstreaming AYUSH - revitalizing local health traditions.
- Reorienting medical education to support rural health issues including regulation of Medical care and Medical Ethics.

2.4. NRHM Plan of Action relating to Infrastructure and Manpower Strengthening

2.4.1 Component (A): Accredited Social Health Activists

- Every village/large habitation will have a female Accredited Social Health Activist (ASHA) - chosen by and accountable to the panchayat- to act as the interface between the community and the public health system. States to choose State specific models.
- ASHA would act as a bridge between the ANM and the village and be accountable to the Panchayat.
- She will be an honorary volunteer, receiving performance-based compensation for promoting universal immunization, referral and escort services for RCH, construction of household toilets, and other healthcare delivery programmes.
- She will be trained on a pedagogy of public health developed and mentored through a Standing Mentoring Group at National level incorporating best practices and implemented through active involvement of community health resource organizations.
- She will facilitate preparation and implementation of the Village Health Plan along with Anganwadi Worker, ANM, functionaries of other Departments, and

Self Help Group members, under the leadership of the Village Health Committee of the Panchayat.

- She will be promoted all over the country, with special emphasis on the 18 high focus States. The Government of India will bear the cost of training, incentives and medical kits. The remaining components will be funded under Financial Envelope given to the States under the programme.
- She will be given a Drug Kit containing generic AYUSH and allopathic formulations for common ailments. The drug kit would be replenished from time to time.
- Induction training of ASHA to be of 23 days in all, spread over 12 months. On the job training would continue throughout the year.
- Prototype training material to be developed at National level, subject to State level modifications.
- Cascade model of training proposed through Training of Trainers including contract plus distance learning model
- Training would require partnership with NGOs/ICDS Training Centres and State Health Institutes.

2.4.2 Component (B): Strengthening Sub Centres (SC)

- Each Sub Centre will have an Untied Fund @ Rs. 10,000 per annum for local action. This Fund will be deposited in a joint bank account of the ANM & Sarpanch and operated by the ANM and the Sarpanch, in consultation with the Village Health, Sanitation & Nutrition Committee, supply of allopathic and indigenous medicines and provision of an additional ANM.
- Annual maintenance grant of Rs. 10,000/- is also made available to every Sub Centre to undertake and supervise improvement and maintenance of the facility.
- A critical issue in delivering health care in the outreach areas, particularly in hilly and desert areas is the “time-to-care”. Health care delivery facilities should be within 30 minutes of walking distance, from habitation, implying that additional Sub Centres where population is dispersed would need to be created. Though there is the assured sub centre team per population of 5000 (3000 in hilly, desert and tribal areas), where the population is dense, the gap can be met by positioning multiple service provider teams at existing Sub Centres/ UPHCs.

2.4.3 Component (C): Strengthening Primary Health Centres (PHCs)

Mission aims at strengthening PHCs for quality preventive, promotive, curative, supervisory and outreach services, through:

- Adequate and regular supply of essential quality drugs and equipment (including supply of auto disabled syringes for immunisation) to PHCs
- Observance of Standard treatment guidelines & protocols.

- Untied grant of Rs. 25,000/- per PHC for local health action and annual maintenance grant of Rs. 50,000/- per PHC and Rs. one lakh to Rogi Kalyan Samiti (RKS) to undertake and supervise improvement and maintenance of physical infrastructure is provided.

2.4.4 Component (D): Strengthening Community Health Centres (CHCs) for First Referral Care

A key strategy of the Mission is:

- Codification of new Indian Public Health Standards setting norms for infrastructure, staff, equipment, management etc. for CHCs.
- Promotion of stakeholder committees (Rogi Kalyan Samitis) for hospital management.
- Developing standards of services and costs in hospital care.
- Develop, display and ensure compliance to Citizen's Charter at CHC/PHC level.
- Untied grant of Rs. 50,000/- and annual maintenance grant of Rs. one lakh and RKS Coupon grant of Rs. one lakh is provided under NRHM to all CHCs.

3. Rural Health Infrastructure - a statistical overview

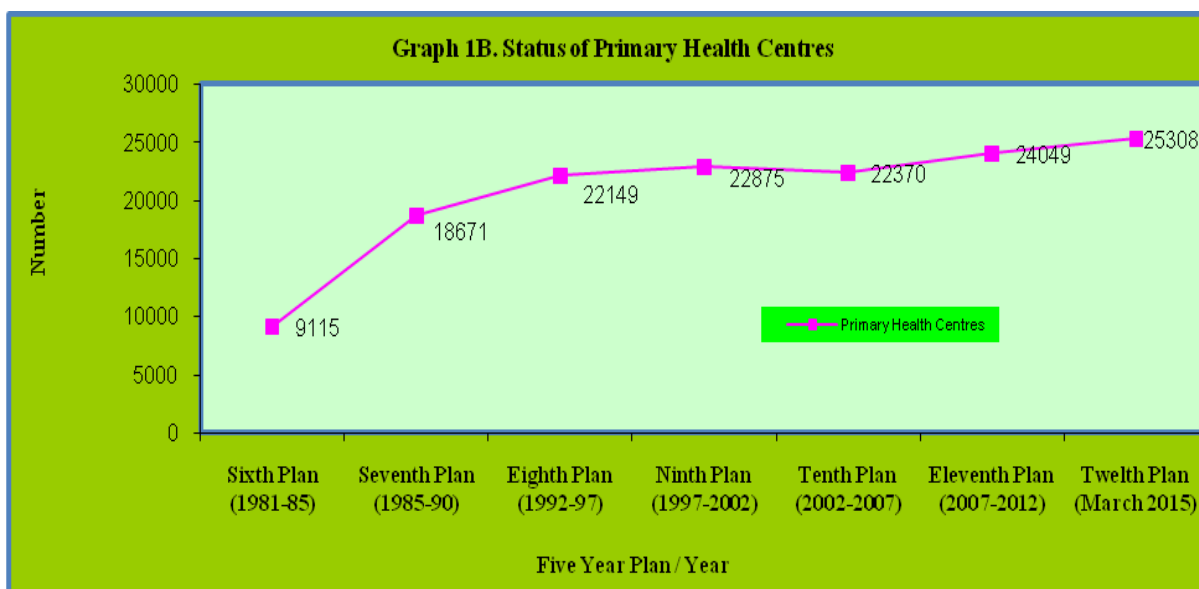

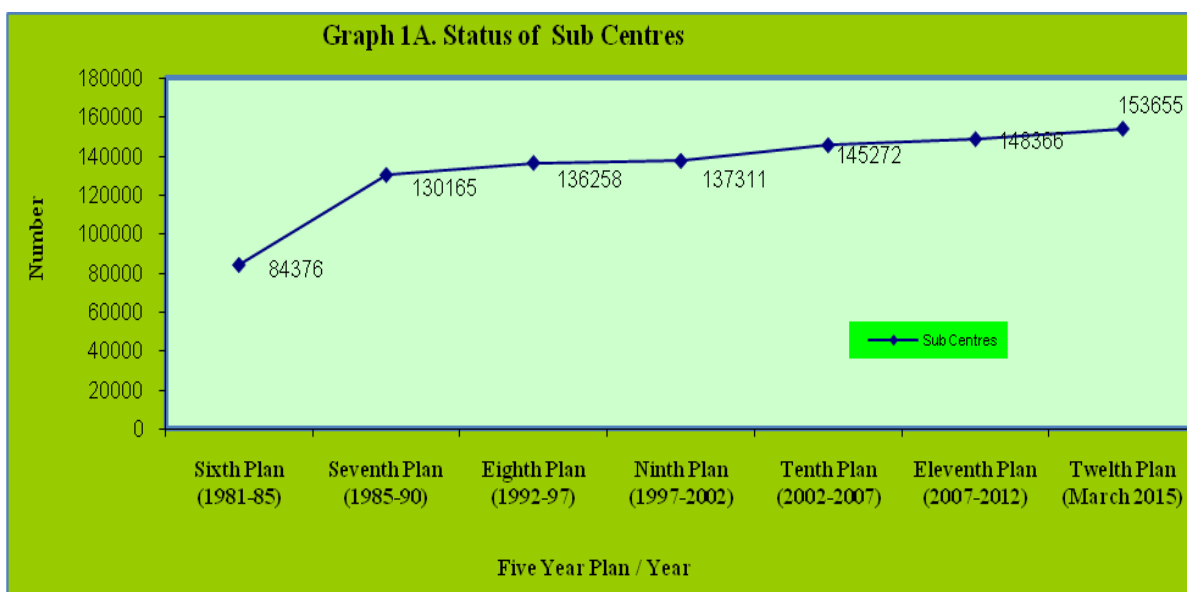

All India analysis for infrastructure and manpower presented below is based on the data received from various States / UTs. It may be noted that the States / UTs which do not have relevant data for a particular item / category, are excluded while calculating percentages for facilities functioning in Government buildings, manpower vacancies and shortfall etc.

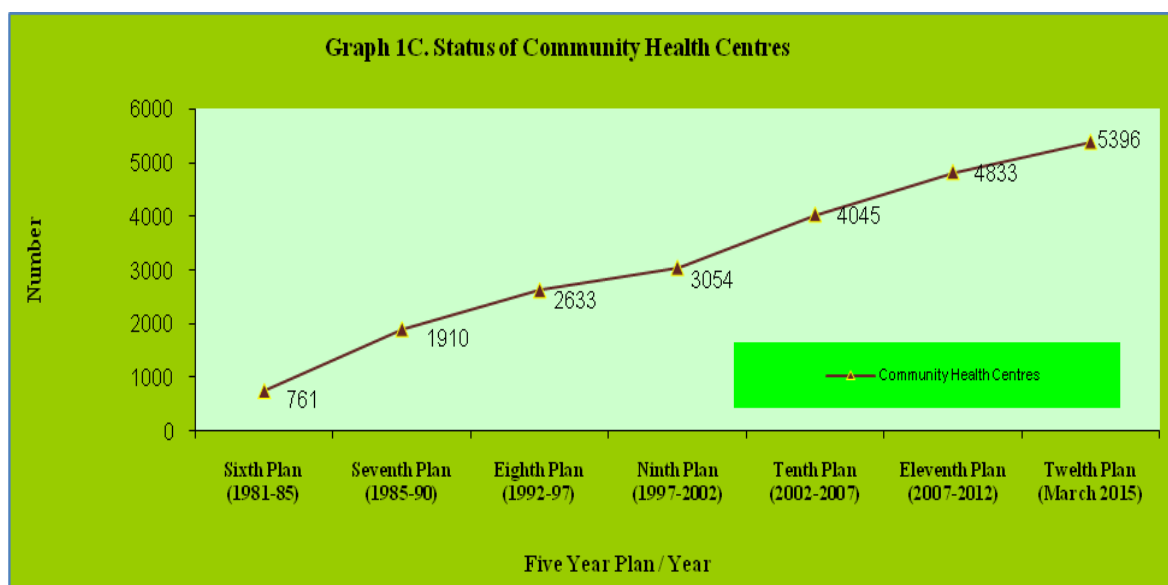

The Centres Functioning

- 3.1.** The Primary Health Care Infrastructure has been developed as a three tier system with Sub Centre, Primary Health Centre (PHC) and Community Health Centre (CHC) being the three pillars of Primary Health Care System. Progress of Sub Centres, which is the most peripheral contact point between the Primary Health Care System and the community, is a prerequisite for the overall progress of the entire system. A look at the number of Sub Centres functioning over the years revealed that at the end of the Sixth Plan (1981-85), there were 84,376 Sub Centres, which increased to 1,30,165 at the end of Seventh Plan (1985-90) and to 1,48,366 at the end of Eleventh Plan (2007-2012). 1,53,655 Sub- Centres were functioning in the country as on 31st March, 2015.

Similar progress can be seen in the number of PHCs which was 9115 at the end of Sixth Plan (1981-85) and almost doubled to 18671 at the end of Seventh Plan (1985-90). Number of PHCs rose to 24049 at the end of Eleventh Plan (2007-

2012). As on 31st March, 2015, there were 25,308 PHCs functioning in the country. A number of PHCs have been upgraded to the level of CHCs in many States. In accordance with the progress in the number of Sub Centres and PHCs, the number of CHCs has also increased from 761 at the end of Sixth Plan (1981-85) to 1910 at the end of Seventh Plan (1985-90) and 4833 at the end of Eleventh Plan (2007-2012). 5,396 CHCs were functioning in the country as on 31st March, 2015.

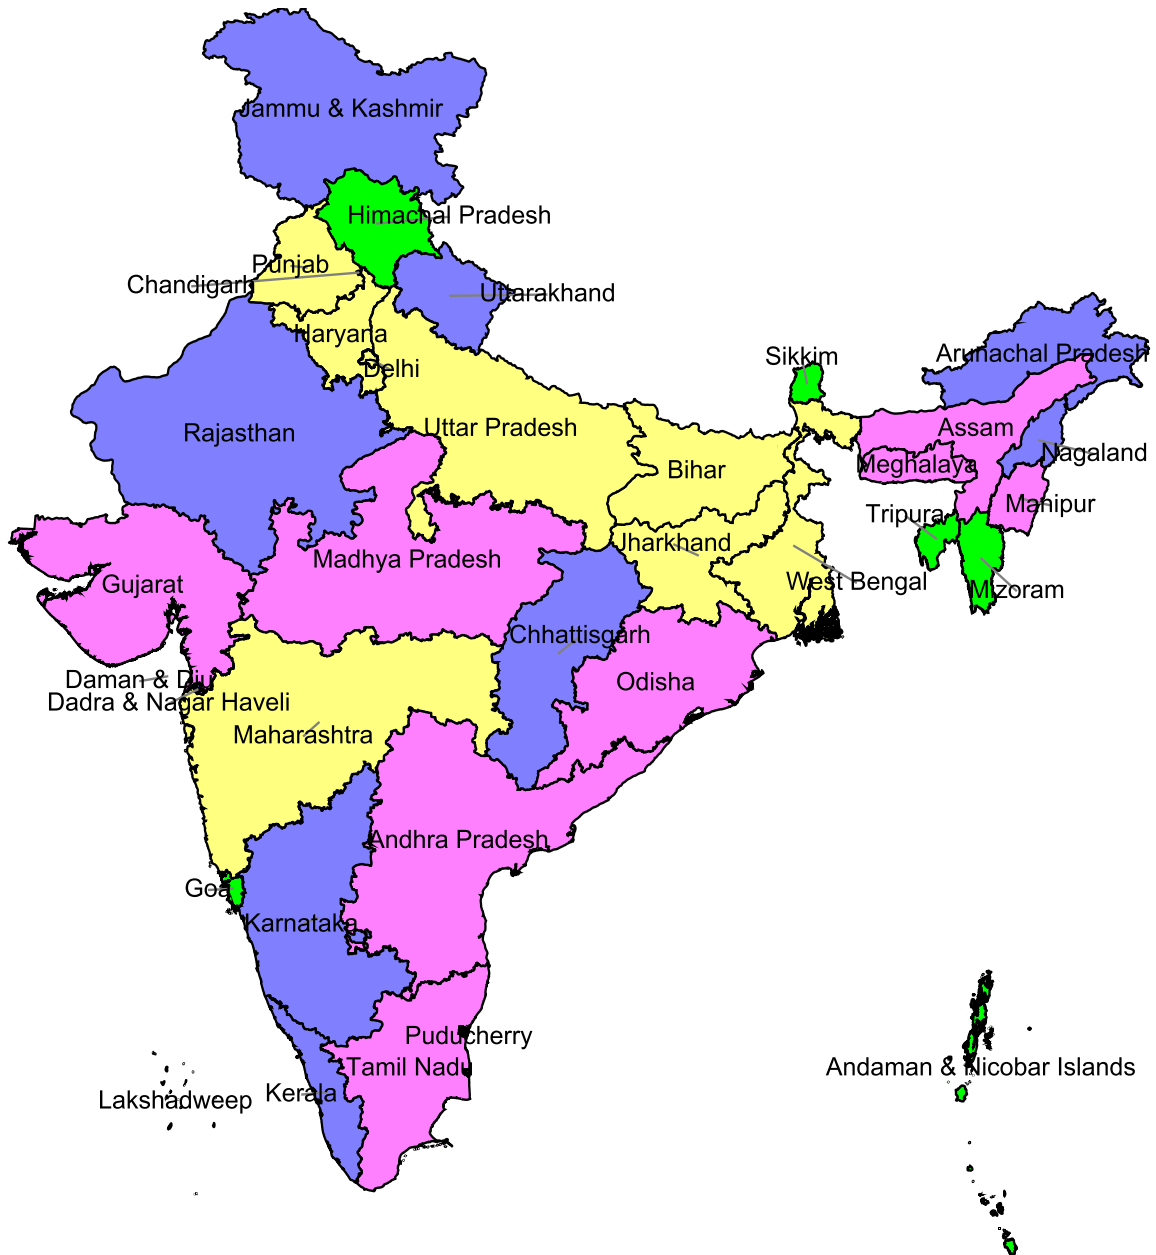

3.2. Statement 1 presents the number of Sub Centres, PHCs and CHCs existing in 2015 as compared to those reported in 2005. As may be seen from the Statement-1, at the national level there is an increase of 7629 Sub Centres, 2072 PHCs and 2050 CHCs in 2015 as compared to those existing in 2005. This implies an increase of about 5.2% in number of Sub Centres, about 8.9% in number of PHCs and about 61.3% in number of CHCs in 2015 as compared to 2005. There is significant increase in the number of Sub Centres in the States of Chhattisgarh, Gujarat, Jammu & Kashmir, Karnataka, Odisha, Rajasthan, Tripura and Uttarakhand. Significant increase is also observed in the number of PHCs in the States of Assam, Bihar, Chhattisgarh, Jammu & Kashmir, Karnataka and Rajasthan. In case of CHCs, significant increase is observed in the States of Gujarat, Jharkhand, Kerala, Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal. The average population covered by a Sub Centre, PHC and CHC were 5426, 32944 and 154512, respectively as on 31st March, 2015. The State-wise variations in the average population covered by a Sub Centre, PHC and CHC are represented in the Maps 1, 2 and 3 respectively.

3.3 Statement 12 presents the number of Sub Centres, PHCs and CHCs existing in 2015 as compared to those reported in 2014. As may be seen from the **Statement 12**, at the national level there is an increase of 1329 Sub Centres, 288 PHCs and 33 CHCs in 2015 as compared to those existing in 2014. Significant increase in the number of Sub Centres is observed in the States of Gujarat (789) and Madhya Pradesh (428). However, in Tripura the number of Sub Centres has reduced by 45. As far as number of PHCs are concerned, significant increase is observed in PHCs in the States of Karnataka (120) and Gujarat (89). In case of CHCs, significant increase in its number has been observed in the State of Gujarat (20).

Map 1. Average Rural Population (Census, 2011) Covered by a Sub Centre as in March, 2015

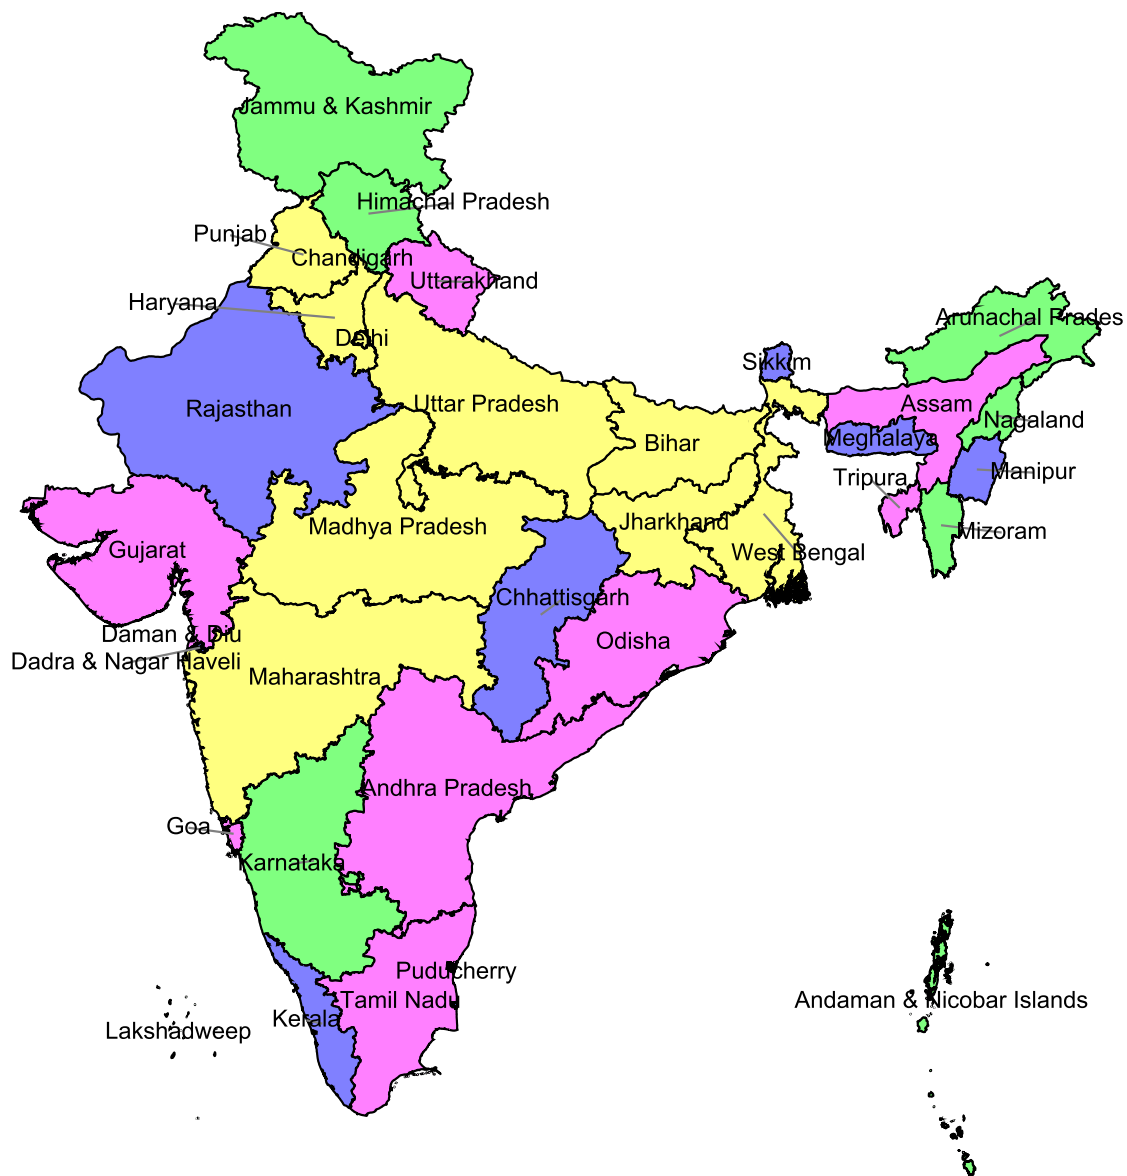

Rural Population Covered by SCs

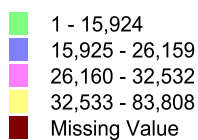

- 1,010 - 3,109
- 3,110 - 4,045
- 4,046 - 5,801
- 5,802 - 15,520
- Missing Value

Note: The boundaries and the names shown and the designations used on these maps do not imply official endorsement or acceptance by the United Nations. The boundaries for the Telangana is not available with Division.

Map 2. Average Rural Population (Census, 2011) Covered by a PHC as in March, 2015

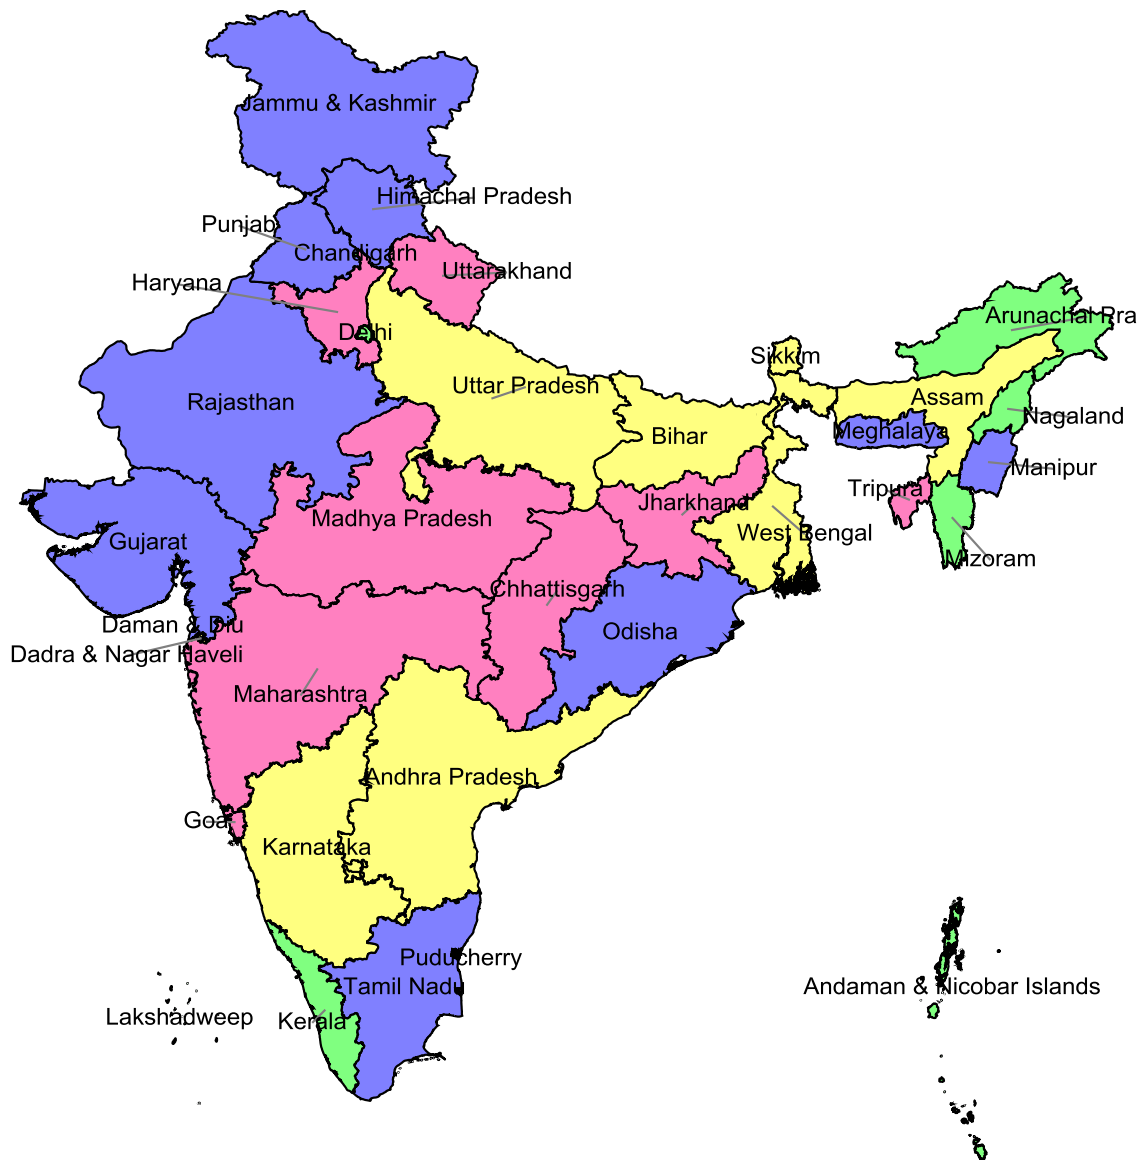

Rural Population Covered by PHC

Note: The boundaries and the names shown and the designations used on these maps do not imply official endorsement or acceptance by the United Nations. The boundaries for Telangana is not available with Division.

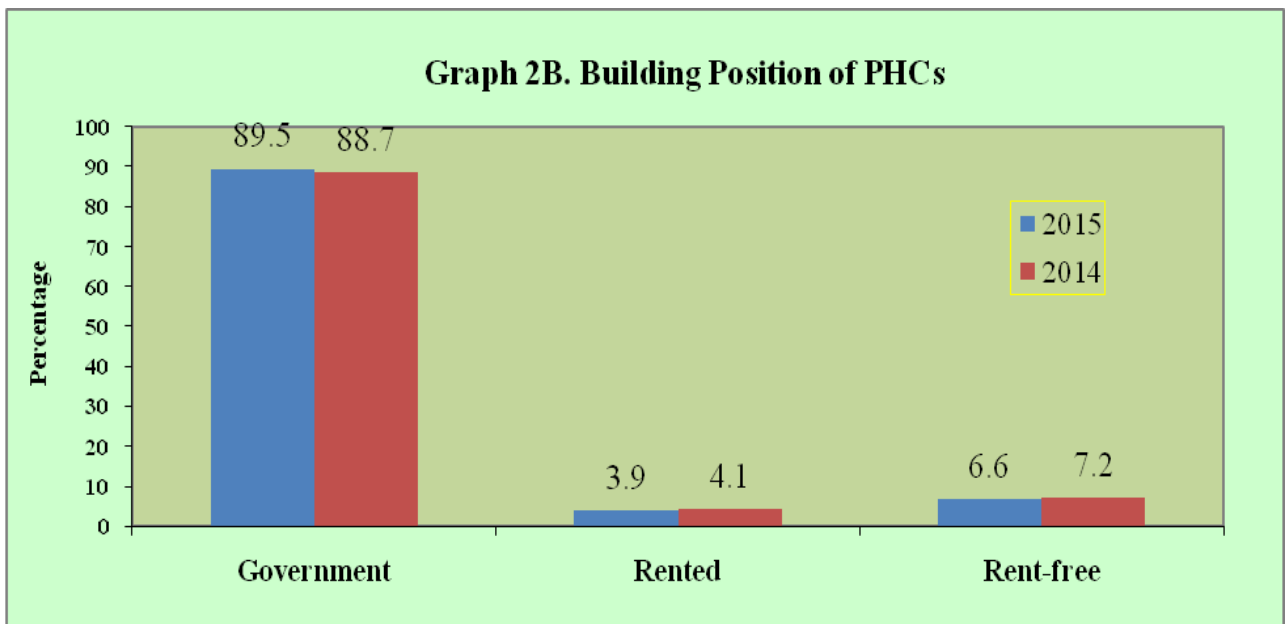

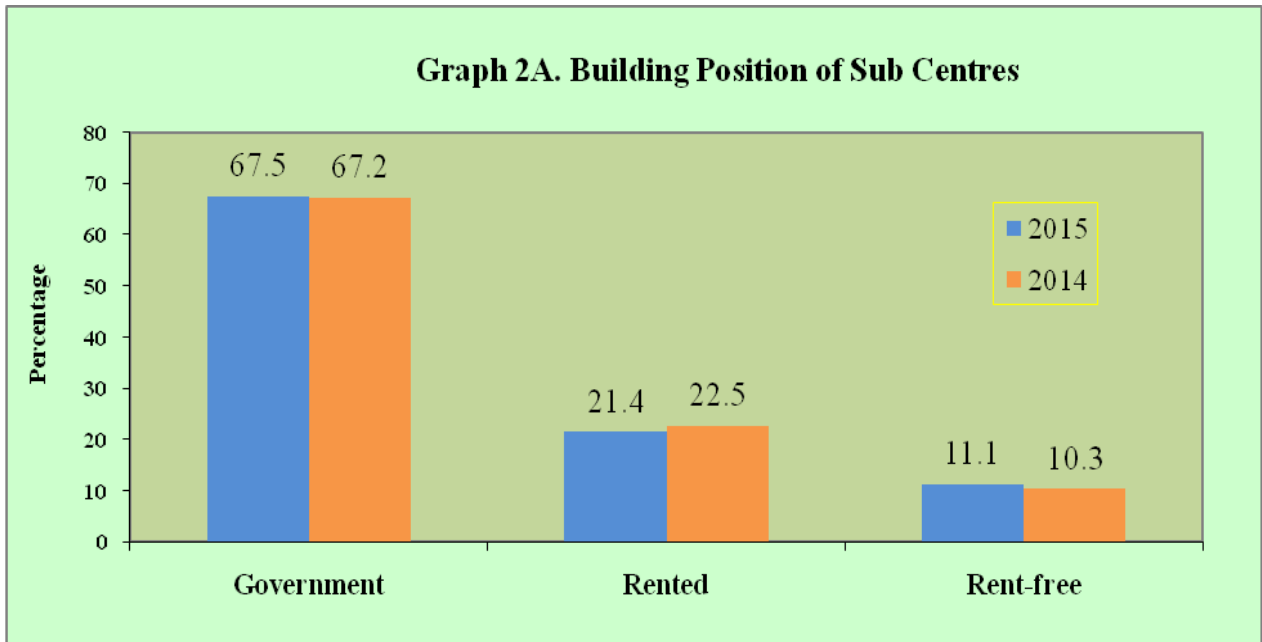

Map 3. Average Rural Population (Census, 2011) covered by a CHC as in March, 2015

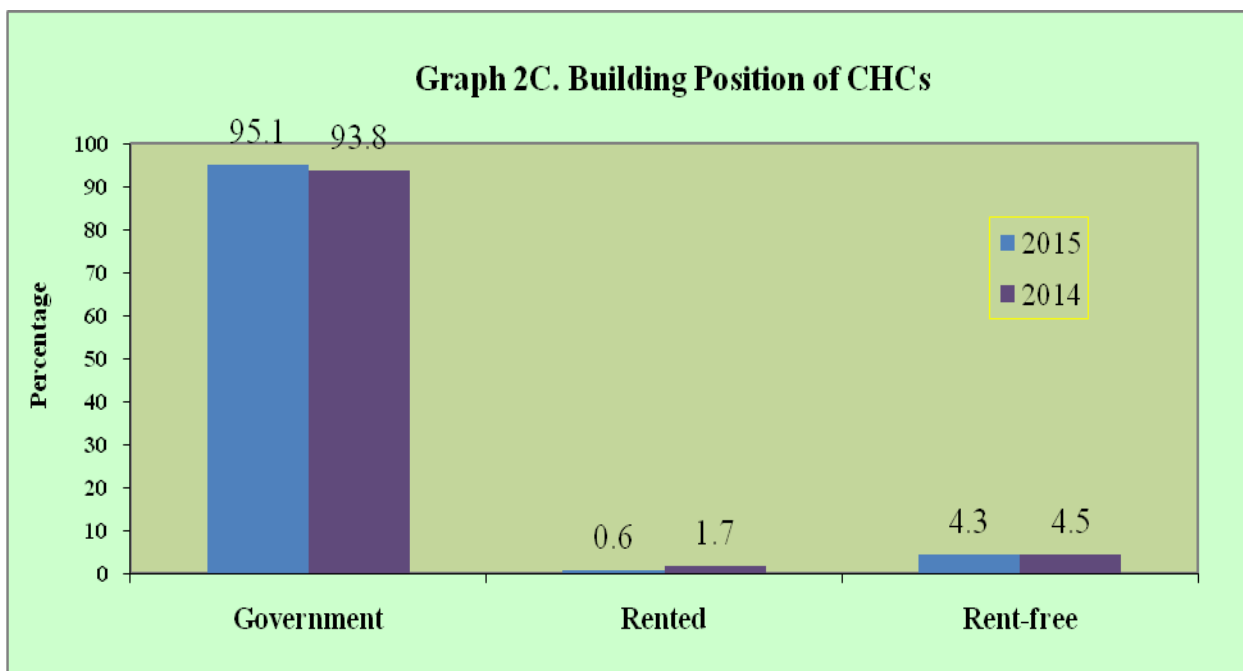

Note: The boundaries and the names shown and the designations used on these maps do not imply official endorsement or acceptance by the United Nations. The boundaries for the Telangana is not available with Division.

Building Status

3.4. As on 31st March, 2015, 67.5% of Sub Centres, 89.5% of PHCs and 95.1% of CHCs were located in government buildings. The rest were located either in rented building or rent free Panchayat/ Voluntary Society buildings.

3.5. Statement 2, Statement 3

and **Statement 4** give the comparative picture of the status of buildings for Sub Centres, PHCs and CHCs, respectively, in 2015 as compared to that in 2005. As may be seen, percentage of

Percentage of Sub-Centres functioning in the Government buildings has increased from 50% in 2005 to 67.5% in 2015
Percentage of PHCs functioning in Government buildings has increased significantly from 78% in 2005 to 89.5% in 2015
The % of CHCs in Govt. buildings has increased from 91.6% in 2005 to 95.1% in 2015.

Sub Centres functioning in the government buildings has increased from 50% in 2005 to 67.5% in 2015 mainly due to substantial increase in the government buildings in the States of Assam, Chhattisgarh, Karnataka, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tripura, Uttarakhand, Uttar Pradesh and West Bengal. Similarly, percentage of PHCs functioning in government buildings has also increased significantly from 78% in 2005 to 89.5% in 2015. This is mainly due to increase in the government buildings in the States of Assam, Chhattisgarh, Gujarat, Karnataka, Madhya Pradesh, Maharashtra and Uttar Pradesh. Moreover, number of CHCs functioning in government buildings has increased appreciably in 2015 as compared to 2005. The percentage of CHCs in govt. buildings has increased from 91.6% in 2005 to 95.1% in 2015.

3.6. Comparative State-wise status of buildings for Sub Centres, PHCs and CHCs in 2014 and 2015 is available at **Statement 13 and status of building position in the country for Sub- Centres, PHCs and CHCs is depicted in graph 2A-2C. As may be**

seen, number of Sub Centres functioning in the government buildings has increased by 1313. There have been significant increase in the States of West Bengal (403), Karnataka (389) and Uttar Pradesh (248). However, the number of Sub Centres functioning in the govt. buildings has reduced in the State of Gujarat (61).

Similarly, number of PHCs functioning in government buildings has also increased by 454 in 2015. This is mainly due to increase in the government buildings in the States of Karnataka (68), Gujarat (58), Tamil Nadu (46) and Madhya Pradesh (45). However, PHCs functioning in Govt. buildings have been reduced in case of Chhattisgarh (67).

Number of CHCs functioning in government buildings has increased by 105 in 2015 as compared to 2014. The increase is observed mainly in the States of Madhya Pradesh (69) and Gujarat (30). There has been a reduction of CHCs functioning in govt. building in Chhattisgarh (15).

Manpower

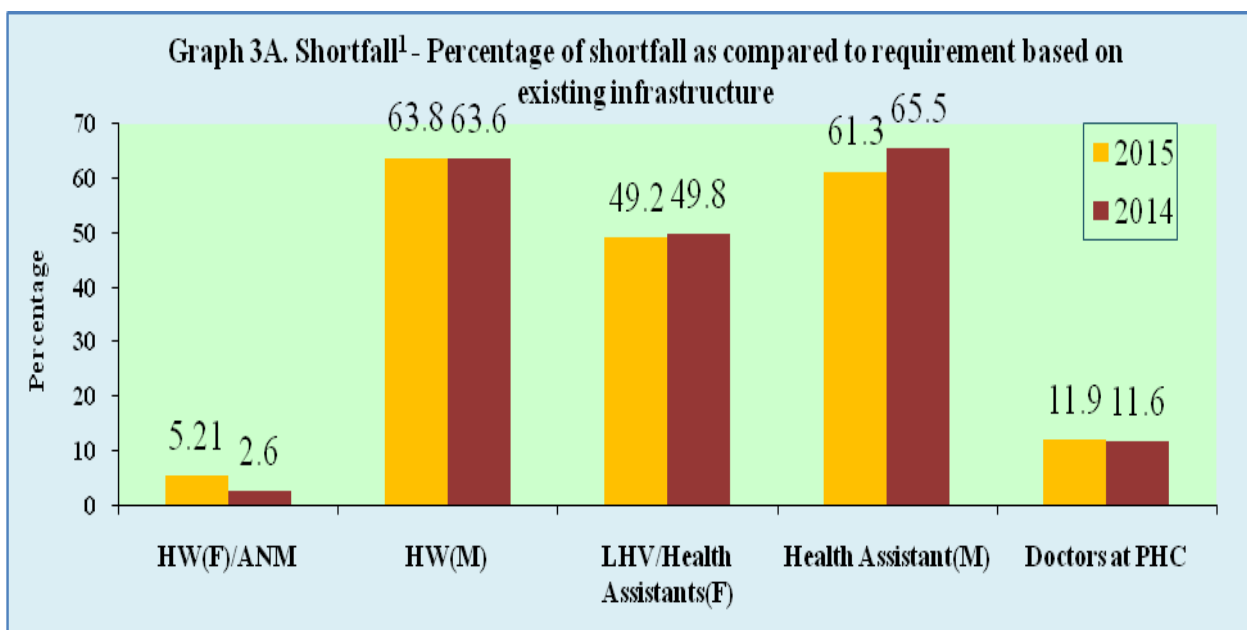

- 3.7.** The availability of manpower is one of the important pre-requisite for the efficient functioning of the Rural Health services. As on 31st March, 2015 the overall shortfall (which excludes the existing surplus in some of the States) in the posts of HW(F) / ANM was 5.21% of the total requirement as per the norm of one HW(F) / ANM per Sub Centre and PHC. The overall shortfall is mainly due to shortfall in States of Arunachal Pradesh, Chhattisgarh, Gujarat, Himachal Pradesh, Karnataka,

As on 31st March, 2015 the overall shortfall in the posts of HW(F)/ANM was 5.21% of the total requirement, mainly due to shortfall in States namely, Arunachal Pradesh, Chhattisgarh, Gujarat, Himachal Pradesh, Karnataka, Rajasthan, Tamil Nadu, Tripura, Uttarakhand and Uttar Pradesh. For allopathic Doctors at PHCs, there was a shortfall of 11.9% of the total requirement for existing infrastructure as compared to manpower in position.

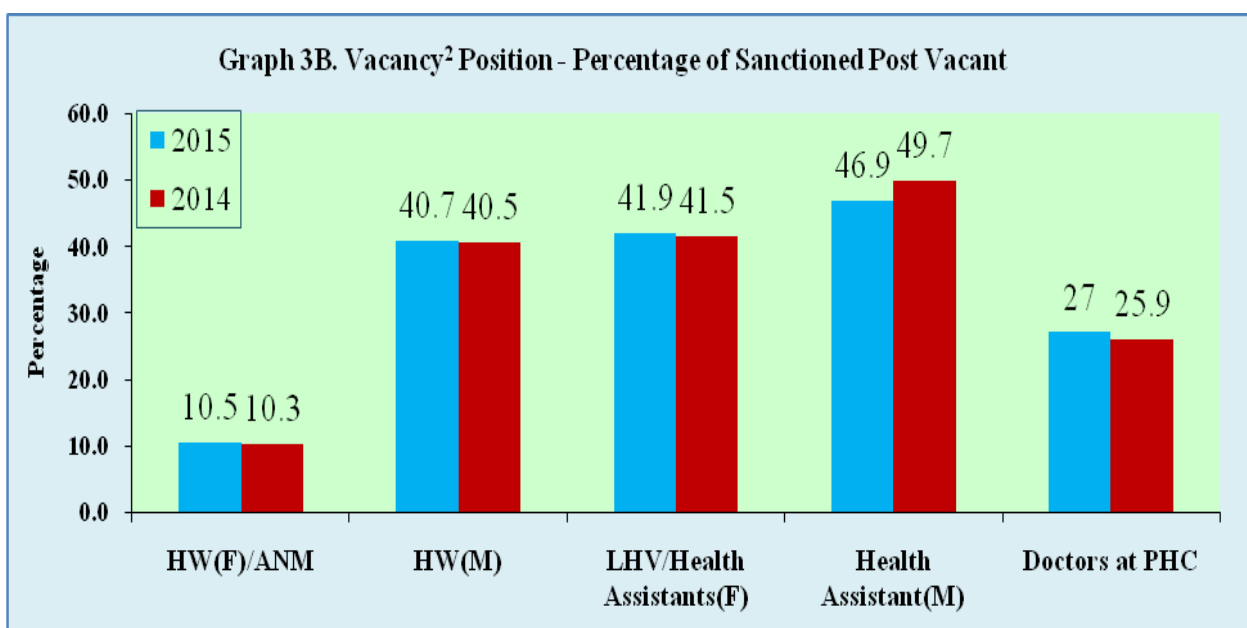

Rajasthan, Tamil Nadu, Tripura, Uttarakhand and Uttar Pradesh. The State-wise variation in shortfall of ANMs is depicted in the **Statement-5**. Similarly, in case of HW (M), there was a shortfall of 63.8% of the

requirement.

Even out of the sanctioned posts, a significant percentage of posts were vacant at all the levels. For instance, 10.5% of the sanctioned posts of HW (Female)/ ANM were vacant as compared to 40.7% of the sanctioned posts of Male Health Worker. At PHCs, 41.9% of the sanctioned posts of Female Health Assistant/ LHV, 46.9% of Male Health Assistant and 27.0% of the sanctioned posts of Doctors were vacant.

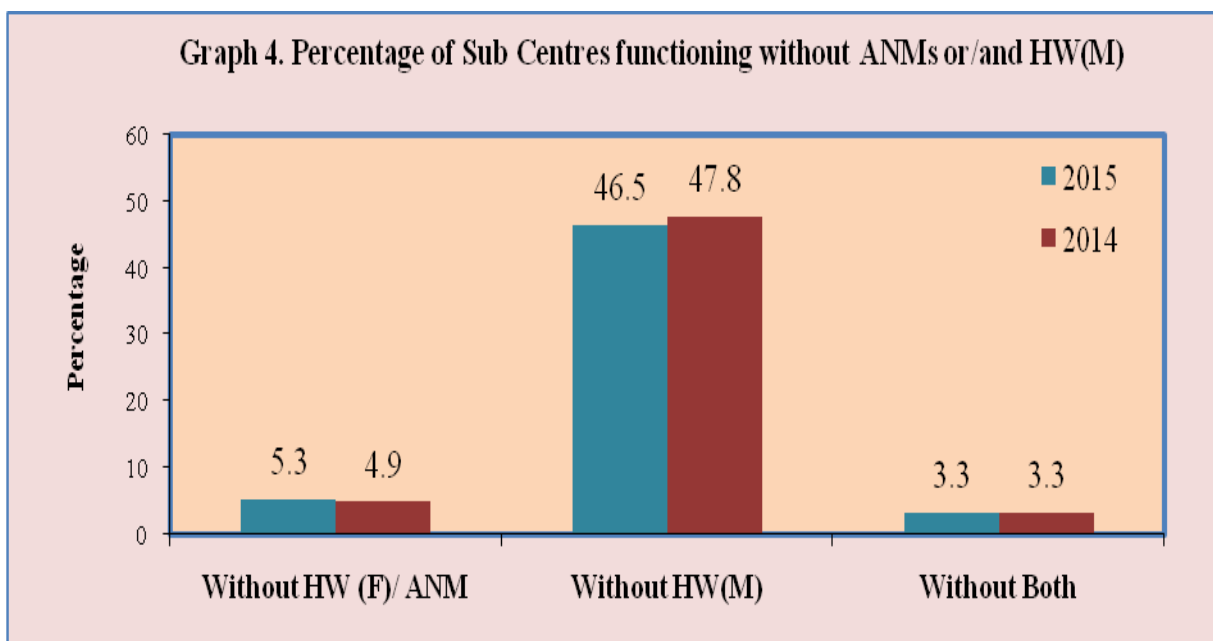

¹ Shortfall is against requirement for existing centres;

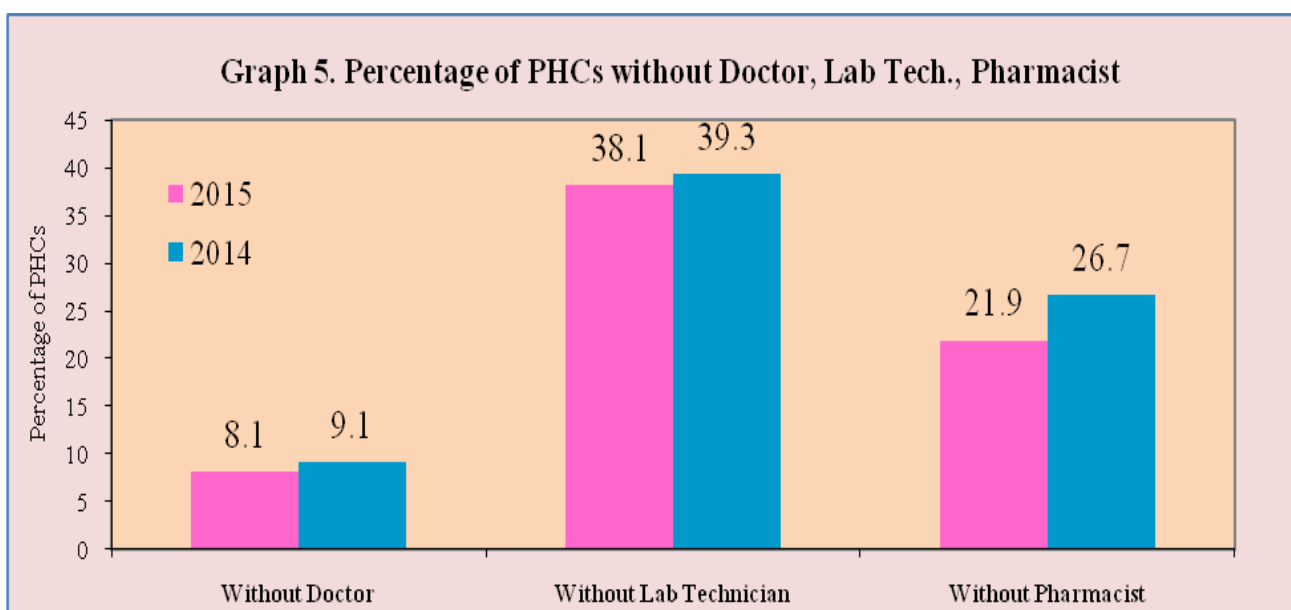

² Vacancy is against sanctioned posts

3.8. At the Sub Centre level the extent of existing manpower can be assessed from the fact that 5.3% of the Sub Centres were without a Female Health Worker / ANM and 46.5% Sub Centres were without a Male Health Worker. 3.3% Sub Centres were without both Female Health Worker / ANM as well as Male Health Worker as per available data.

3.9. PHC is the first contact point between village community and the Medical Officer. Manpower in PHC includes a Medical Officer supported by paramedical and other staff. In case of PHC, for Health Assistant (Female)/LHV, the shortfall was 49.2% and that of Health Assistant (Male) was 61.3%. For allopathic doctors at PHC, there was a shortfall of 11.9% of the total requirement. This is again mainly due to significant shortfall of doctors at PHCs in the States of Chhattisgarh, Gujarat, Karnataka, Madhya Pradesh, Odisha, Uttarakhand, Uttar Pradesh and West Bengal.

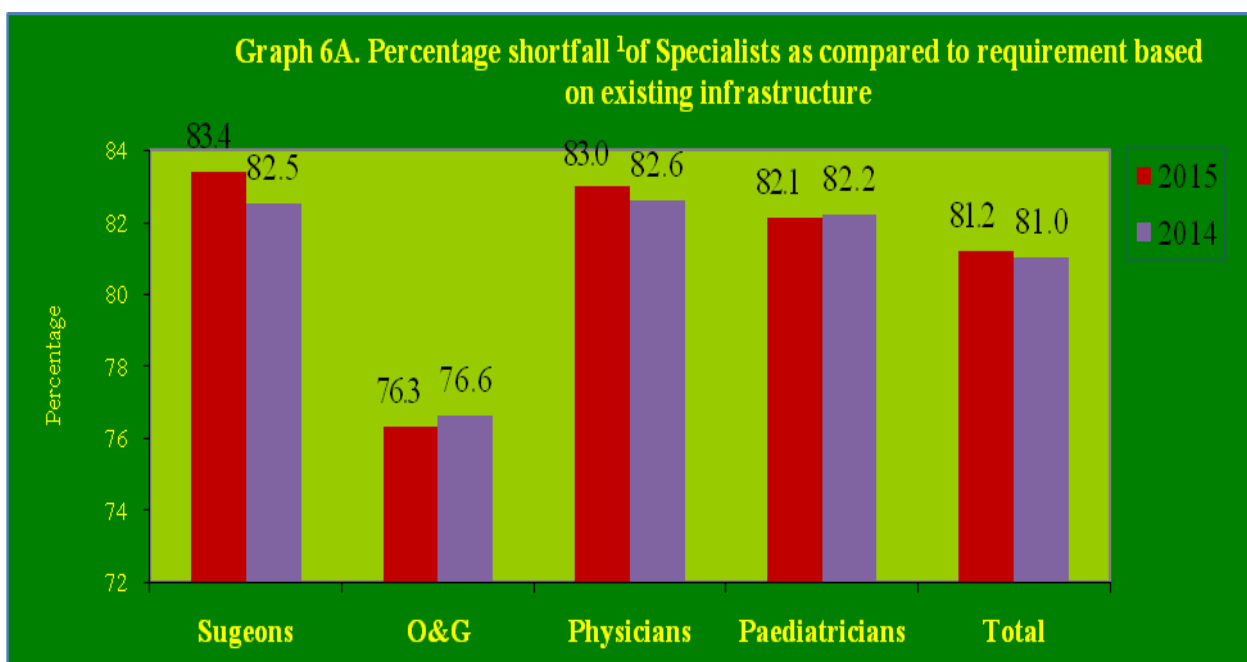

As on 31st March, 2015, 8.1% of the PHCs were without a doctor, 38.1% were without a Lab Technician and 21.9% were without a pharmacist.

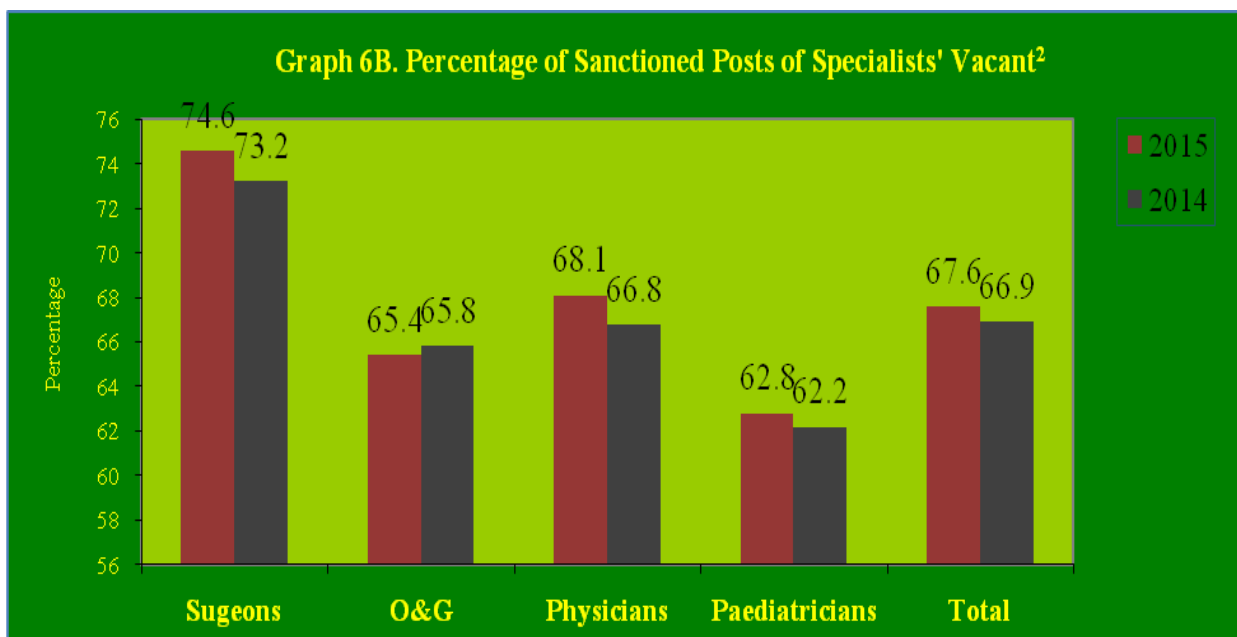

3.10. The Community Health Centres provide specialized medical care of surgeons, obstetricians & gynaecologists, physicians and paediatricians. The current position of specialists manpower at CHCs reveal that as on 31st March, 2015, out of the sanctioned posts, 74.6% of Surgeons, 65.4% of obstetricians & gynaecologists, 68.1% of physicians and 62.8% of paediatricians were vacant. Overall 67.6% of the sanctioned posts of specialists at CHCs were vacant. Moreover, as compared to

The Specialist doctors at CHCs have increased from 3550 in 2005 to 4078 in 2015. However, as compared to requirement for existing infrastructure, there was a shortfall of 83.4% of Surgeons, 76.3% of Obstetricians & Gynaecologists, 83.0% of Physicians and 82.1% of Paediatricians. Overall, there was a shortfall of 81.2% specialists at the CHCs as compared to the requirement for existing CHCs.

requirement for existing infrastructure, there was a shortfall of 83.4% of surgeons, 76.3% of obstetricians & gynaecologists, 83.0% of physicians and 82.1% of paediatricians. Overall, there

was a shortfall of 81.2% specialists at the CHCs as compared to the requirement for existing CHCs. The shortfall of specialists is significantly high in most of the States. However, in addition to the specialists, about 11822 General Duty Medical Officers (GDMOs) are also available at CHCs as on 31st March, 2015.

¹ Shortfall against requirement for existing Centres

² Vacancy against sanctioned posts

3.11. When compared with the manpower position of major categories in 2015 with that in 2005, as presented in **Statement 5** to **Statement 11**, it is observed that there are significant improvements in terms of the numbers in all the categories. For instance, the number of ANMs at Sub Centres and PHCs (**Statement 5**) have increased from 1,33,194 in 2005 to 2,12,185 in 2015 which amounts to an increase of about 59.3%. Similarly, the allopathic doctors at PHCs (**Statement 6**) have increased from 20,308 in 2005 to 27,421 in 2015, which is about 35.0% increase. Moreover, the specialist doctors at CHCs (**Statement 7**) have increased from 3550 in 2005 to 4078 in 2015, which is an appreciable 14.9% increase.

3.12. Looking at the State-wise picture, it may be observed that the increase in ANMs is attributed mainly to significant increase in the States of Assam, Chhattisgarh, Gujarat, Haryana, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Rajasthan, Uttarakhand, Uttar Pradesh and West Bengal. Similarly, there is significant increase in the number of doctors at PHCs in the States of Jammu & Kashmir, Kerala, Madhya Pradesh and Rajasthan. In case of specialists, appreciable increase is noticed in the States of Chhattisgarh and Madhya Pradesh. Significant increase in the number of paramedical staff is also observed when compared with the position of 2005.

3.13. Comparative State-wise status of manpower in 2014 and 2015 at Sub Centres, PHCs and CHCs is given in **Statements 14** and **15**. Comparison of the manpower position of major categories in 2015 with that in 2014, as presented in **Statement**

14 and **Statement 15**, shows decline in ANMs and Specialists. The number of ANMs at Sub Centres and PHCs (**Statement 14**) decreased from 2,13,400 in 2014 to 2,12,185 in 2015 which amounts to a decrease of 1,215. Major reductions were observed in the States of Tamil Nadu (619), Maharashtra (466), Jammu & Kashmir (292), Rajasthan (259), Tripura (185) and Madhya Pradesh (168). However, there was significant increase in the States of Bihar (869), Jharkhand (492), West Bengal (422) and Haryana (382). The allopathic doctors at PHCs (**Statement 14**) have increased from 27,355 in 2014 to 27,421 in 2015. There are significant increases in the States of Maharashtra (431), Rajasthan (301), Tamil Nadu (236) and Haryana (94). Major reduction is observed in the State of Jammu & Kashmir (390). Regarding the specialist doctors at CHCs (**Statement 14**), the number has decreased from 4,091 in 2014 to 4078 in 2015. Major decreases have been noticed in the States of Rajasthan (125) and Punjab (29). Major increase has been noticed in Maharashtra (116).

- 3.14** Considering the para medical staff, the radiographers at CHC (**Statement 15**) have decreased from 2,189 in 2014 to 2,150 in 2015. The major reductions are observed in the States of Jammu & Kashmir (76) and Maharashtra (28). However, there is a significant increase in the State of Tamil Nadu (54). The pharmacists at PHC & CHC (**Statement 15**) have increased from 22,689 to 23,131. The major increases observed are in the States of Rajasthan (157), Karnataka (101), Tamil Nadu (83), West Bengal (70), Chhattisgarh (36) and Bihar (34). However, significant decrease has been noticed in the States of Tripura (47), Jammu & Kashmir (39) and Nagaland (36). The Lab Technician at PHCs & CHCs (**Statement 15**) has increased from 16,679 to 17,154. Major increases observed in the States of Tamil Nadu (289), Rajasthan (100), Karnataka (91), West Bengal (73), Maharashtra (65) and Chhattisgarh (31). However, there are significant decrease in the States of Himachal Pradesh (95) and Jammu & Kashmir (47). Nursing Staff at PHCs & CHCs (**Statement 15**) increased from 63,938 to 65,039. There are significant increases in the States of Tamil Nadu (610), Rajasthan (564), Chhattisgarh (398), Assam (285), Jammu & Kashmir (282), Himachal Pradesh (201) and Haryana (119). However, major reductions are observed in the states of Karnataka (622), West Bengal (556), Tripura (202) and Puducherry (94).
- 3.15** In India, 1022 Sub Divisional/ Sub District Hospital are functioning as on 31st March, 2015. At Sub Divisional/Sub District Hospitals, there are 10018 doctors available. In addition to the doctors, about 26717 paramedical staffs are also available at Sub Divisional/ Sub District Hospitals as on 31st March, 2015.
- 3.16** In India, 763 District Hospitals are functioning as on 31st March, 2015. At District Hospitals, 18437 doctors are available. In addition to the doctors, about 55642 para medical staff are also available at District Hospitals as on 31st March, 2015.

Annexure I. Manpower Recommended Under Indian Public Health Standards (IPHS).

| Type of Sub Centre | Sub Centre A | | Sub Centre B (MCH Sub Centre) | |

Note: [^] data for 2013-14 repeated

¹ Because of the implementation of standardization of health institutions some of the PHCs were changed to CHC and vice versa Some of the CHCs with more facilities and patient attendance have been changed to Taluk Hospitals.

[#] State informed that there are 79 other hospitals functioning which are equal to PHCs level facilities

Notes: The requirement is calculated using the prescribed norms on the basis of rural population from Census, 2011. All India shortfall is derived by adding state-wise figures of shortfall ignoring the existing surplus in some of the states.

R: Required; P: In Position; S: Shortfall; *: Surplus

Notes: The requirement is calculated using the prescribed norms on the basis of rural population from Census, 2011. All India shortfall is derived by adding state-wise figures of shortfall ignoring the existing surplus in some of the states.

R: Required; P: In Position; S: Shortfall; **: Surplus, *: State / UT has no separate Tribal Area / Population;

#: States are predominantly tribal areas

++ State informed that there are 23 other hospitals functioning in tribal area which are equal to PHCs level facilities

² The population is less than the norm (CHC) of 80,000.

^ Data for 2013-14 repeated

+ Data for 2010 repeated

PART 3.

ANNEXURES

I. PROFORMA FOR PROGRESS REPORT

PROFORMAE
FOR
REPORT
ON
RURAL HEALTH STATISTICS
(As on 31st March, 2015)

GENERAL INSTRUCTION FOR FILLING THE PROFORMA

1. Please read all columns carefully while giving the information. The foot-notes under the proformae should also be kept in view while giving the information
2. All columns in each proforma should be filled and no column should be left blank.
3. While furnishing the information, the information supplied earlier should also be taken in view to ensure accuracy and consistency of data supplied.
4. While supplying the information for the current year, it should be ensured that the figures of permanent nature, e.g. 'position at the end of the last year' etc. supplied for the earlier year should be the same unless there is specific reason for the change and the reason be specified clearly as a footnote.

STATE / UT.

Report for the year ending 31st March, 2015

PROFORMA - I

STATUS OF PRIMARY HEALTH INFRASTRUCTURE

SUB CENTERS, PHCs AND CHCs IN POSITION

| Health Institution | No. Functioning as on 31.3.2014 | No. Established During the current year (2014-15) | Cumulative functioning at the end of the year (as on 31.3.2015) |
|--|---------------------------------|---|---|
| (1) | (2) | (3) | (4) |
| Sub Centres | | | |
| PHCs (including Additional PHCs and Mini PHCs) | | | |
| CHCs | | | |
| *Sub Divisional Hospital | | | |
| *District Hospital | | | |
| *No. of Mobile Medical Units operational | | | |

*The total number of District Hospital, Sub Divisional Hospital and Mobile Medical Units functioning in the State to be given

PROFORMA –II

SUB CENTERS, PHCs & CHCs IN POSITION IN TRIBAL AREAS (As on 31st March, 2015)

| | SUB CENTRES | PHCs (including Additional PHCs and Mini PHCs) | CHCs | Sub Divisional Hospital | District Hospital | Remarks if any |
|-------------|-------------|--|------|-------------------------|-------------------|----------------|
| | (1) | (2) | (3) | (4) | (5) | (6) |
| Tribal Area | | | | | | |

Note:

No column should be left blank. If there is no tribal area in the State, it should be clearly stated in the footnote.

PROFORMA-III**FUNCTIONAL STATUS OF PRIMARY HEALTH INFRASTRUCTURE** (As on 31st March, 2015)

| A : SUB CENTERS | Number |
|---|---------------|
| 1.Total No. of Sub Centers functioning (a+b+c) | |
| a. Without ANM | |
| b. With One ANM | |
| c. With Two ANMs (including regular ANM or additional Contractual ANM) | |
| <i>Total No. of Sub Centers functioning (a+b+c) should be equal to the no. of Sub Centres as mentioned in Proforma I</i> | |
| 2. No. of Sub Centers functioning without Health Worker (M) | |
| 3. No. of Sub Centers functioning without Health Worker (M) and ANM (both) (These are Sub Centres where neither ANM nor HW(M) is available) | |
| 4. No. of Sub Centers with ANM quarters | |
| 5. No. of Sub Centers with ANM living in Sub Centre quarters | |
| 6. No. of Sub Centers with ANM living in Sub Centre village | |
| 7. No. of Sub Centers without all weather motor able approach road. | |
| 8. No. of Sub Centers without regular water supply | |
| 9. No. of Sub Centers without electricity supply. | |
| 10. No. of Sub Centres having a regular supply of generic drugs for common ailments | |
| 11. No. of Sub Centres functioning as per IPHS norms | |

| B. Primary Health Centers | Number |
|--|---------------|
| 1. No. of PHCs functioning (a+b+c+d+e) | |
| a. with 4 or more Doctors only | |
| b. with 3 Doctors only | |
| c. with 2 Doctors only | |
| d. with 1 Doctors only | |
| e. without a Doctor | |
| (Figure include both Allopathic and AYUSH doctors / practioners; Total of figures against S.No. 'a' to 'e' should be equal to figure given in Proforma I) | |
| 2. No. of PHCs functioning with at least one female Doctor | |
| 3. No of PHCs functioning without lab. technician | |
| 4. No of PHCs functioning without Pharmacist | |
| 5. No of PHCs functioning without lab. technician and Pharmacist (both) | |
| 6. No.of PHCs functioning without Nurse Midwife/Staff Nurse | |
| 7. No.of PHCs functioning without ANMs | |
| 8. No. of PHCs having the Computer / Statistical Assistant for MIS / Accountant in position | |
| 9. No.of PHCs with labor room | |
| 10. No. of PHCs with O. T. | |
| 11. No. of PHCs with functioning laboratory | |
| 12. No. of PHCs with at least 4 beds | |
| 13. No. of PHCs with 10 or more beds | |
| 14. No. of PHCs with New Borne Care Corner | |
| 15. No. of PHCs with AYUSH facility | |
| 16. (a) No. of PHCs functioning on 24X7 basis | |
| 16. (b) No. of PHCs with round the clock facility for delivery | |
| 16. (c) No. of PHCs with three Staff Nurses | |
| 17. No. of PHCs without electricity | |
| 18. No. of PHCs without regular water supply | |
| 19. No. of PHCs with telephone facility | |

| B. Primary Health Centers (Contd..) | Number |
|--|---------------|
| 20. No. of PHC without all weather motorable approach road. | |
| 21. No. of PHCs with computer facility | |
| 22. No. of PHCs having Doctor's quarter | |
| 23. No. of Doctors living in PHC quarter | |
| 24. No. of PHCs having referral transport available | |
| 25. No. of PHCs having a regular supply of | |
| a. Allopathic drugs for common ailments | |
| b. AYUSH drugs for common ailments | |
| 26. No. of PHCs having registered Rogi Kalyan Samiti / Hospital Management Society | |
| 27. No. of PHCs functioning as per IPHS norms | |

| C. Community Health Centres | Number |
|--|---------------|
| 1. No. of CHCs functioning with all four specialist (Physician, Obstetrician & Gynaecologist, Surgeon, Paediatricians) in-position | |
| 2. No. of CHCs having the Computer / Statistical Assistant for MIS / Accountant in position | |
| 3. Number of CHCs with functional Laboratory | |
| 4. Number of CHCs with functional O.T. | |
| 5. Number of CHCs with functional Labor Room | |
| 6. Number of CHCs with functioning Stabilization Units for New Born | |
| 7. Number of CHCs with New Born Care Corner | |
| 8. Number of CHCs with at least 30 beds | |
| 9. Number of CHCs with functional X-Ray machine | |
| 10. Number of CHCs having quarters for specialist Doctors | |
| 11. Number of CHCs with specialist Doctors living in quarters | |
| 12. No. of CHCs having a regular supply of | |
| a. Allopathic drugs for common ailments | |
| b. AYUSH drugs for common ailments | |
| 13. No. of CHCs with referral transport available | |
| 14. No. of CHCs having registered Rogi Kalyan Samiti / Hospital Management Society | |
| 15. No. of CHCs functioning as per IPHS norms | |

| D. FIRST REFERRAL UNITS | Numbers |
|--|----------------|
| 1. No. of First Referral Units | |
| a) at PHC level | |
| b) at CHC level | |
| c) at Sub Divisional level | |
| d) at District level | |
| e) Total of (a+b+c+d) | |
| 2. No. of FRUs with more than 30 beds | |
| 3. No. of FRUs with round the clock delivery services including normal & assisted deliveries | |
| 4. No. of FRU's with Emergency obstetric services Including surgical interventions | |
| 5. No. of FRU's with | |
| a. Gynaecologist | |
| b. Pediatrician | |
| c. Surgeon | |
| d. Anesthetist | |
| e. All the four above | |
| 6. No. of FRUs with functional SNCU (Special New-born Care Unit) | |
| 7. No. of FRUs having on-call facility of specialist | |
| 8. No. of FRU's with functional O.T | |
| 9. No. of FRU's with functional labor Room | |
| 10. No. of FRU's with functional X- Ray Machine | |
| 11. No. of FRU;s with functional Lab. | |
| 12. No. of FRU's with Blood storage/linkage facility | |
| 13. No. of FRU's having referral transport service | |
| 14. No. of FRU's with back up generator/electric supply | |
