# PREFACE

This publication, 'Selected Information on School Education in India 2011-12' provides state-wise information on various aspects of school education for an academic year. School education in India is characterized by a wide variation in terms of the duration of various levels of school education, number of working days in a year, duration (in years) prescribed for pre-primary level, details of +2 Education in colleges, age restriction for admission to Class - I, medium of instruction, teaching of Hindi and English, academic year and vacation periods, details of public examination by levels of school education, syllabus followed in the State government schools and schemes implemented by the States/UTs to increase access, equity, inclusion & quality etc and implementation of RTE Act in States/UTs. In addition, information is collected from the States/UTs where RTE is not being implemented on certain parameters such as compulsory education by levels of education, free education by type of management of schools, tuition fee charged per child per annum in government schools, prescribed Pupil-Teacher Ratio and minimum number of working days/hrs for teachers, etc. The present publication relates to the year 2011-2012 and has been prepared on the basis of information supplied by the DPI Offices / Directorates of School Education in the States and Union Territories in a pre-devised format. The format for data collection has been modified since 2011-12 to capture information on new developments in education sector. A new chapter on schemes being implemented by States/UTs for the benefits of students has also been included.

I would like to thank the officers of the State Governments and Union Territory Administrations as well as the officers and staff of the Statistics Division for their efforts in bringing out this publication on time.

It is our constant endeavour to improve the coverage of this publication as well as its presentation based on the feedback received from its users. Suggestions, if any, for improving the publication are welcome. We hope that this publication will provide useful information to educational planners, policy makers and those engaged in research and development in the field of education.
